Dear Judy:

I apologize for the delay in my writing. It has been another round of the Bureau transfer initiatives for me. Yes, I am now at this latest "hell-hole" called FCI-Florence. I guess if you bad mouth a place long enough you will end-up seeing it for yourself. Well, I am here!!! It is not that bad. At least there is a small group of gay persons here that I hang-out with, which is important in terms of moral and emotional support. There are only a few of us out of a population of twelve hundred. I suspect that they moved me here so that when the super-max opens right next-door, they won't have far to take me. I would nottbe surprised if I ended up there. I've come to expect the worst out of these people.

Since, I've been here I 've been working on the writing you asked me to do. I did not have my property for about three weeks, so I had nobody's address or phone number. I am just filling out my phone list. With regard to the writing, I have just about finished it. I just need to sit-down and type it. I want to have it printed into a little booklet. I hope that you like it, as there is definitely a strong religious foundation to it. In fact, I wrote the book on the Peace of God. I believe that it is so important for people who do not know what life holds for them, and are in a position where they can not do anything to enhance there lives to have the hope, love and determination that comes through the Peace of God. I speak from a personal experience, of course.

Otherwise, things are going o.k. I am still bogged down with alot of work. There is a transgendered Law Conference coming up, etc.] Got to go. Will write again soon. It's ,movement time.

Love and sisterhood,

Dee Farmer
