THE FOURTH SEX!

Not Male, Not Female, And Not Homosexual

Shocking Photos, Sensational Story! See pages 4 and 5!

Transsexual Coccinelle, a member of the fourth sex.
Psychologist Reveals
The Fourth Sex!
Not Male
Not Female
Not Homosexual

By ARNOLD WELLS

There is a new species of sexual being on the rise in the United States today. The most respected members of the medical profession are divided in bitter controversy about it. Religious groups are ready to condemn it completely. The laws of every state are a mass of confusion in dealing with it.

She-male Coccinelle
Transsexuals can enjoy sexual intercourse even though their sex organs have been surgically constructed.

This is the "fourth sex" that is NEITHER MALE NOR FEMALE NOR HOMOSEXUAL. ITS MEMBERS ARE THE MEN WHO DEMAND THAT SURGEONS REMOVE THEIR SEX ORGANS AND TRANSFORM THEM INTO WOMEN.

Little has been said about it because so little is known. There are crude jokes about going "to Denmark for that operation." They are false. MEN CAN AND DO HAVE THE SURGERY PERFORMED REGULARLY IN THE UNITED STATES.

Sexual Conversion
But that is only one of the startling facts behind the cloak of whispers and secrecy that shrouds this cult of sexual conversion. Here are some of the others uncovered in an intensive study by The National Insider:

There is rarely anything physically wrong with the men who want this operation performed.

It is possible to use parts of the male sex organs to shape female sex organs through plastic surgery.

It is possible for the transformed males to have "normal" sex relations as women, even to the point of achieving orgasm.

A number of the former men have become housewives with happy marriages.

Many become prostitutes, taking men into their arms again and again in order to prove that they are women.

Psychiatry has failed completely in curing any of the members of the "fourth sex" men who live in this mysterious world was undertaken in May after one of the rare medical reports about them. The report was delivered to the American Psychiatric Association meeting in Los Angeles by Dr. Ira B. Pauly.

100 She-men
He is an assistant professor of psychology at the University of Oregon Medical School in Portland, Ore., and well qualified for a serious examination of the situation.

His report, setting out some of the reasons why men ask for surgical changes in their sex, dealt with nearly 100 MEN WHO ARE NOW LIVING AS WOMEN.

"These individuals come from all social and economic levels," he said later in an EXCLUSIVE interview with this reporter. "The demand for the surgery is not caused by any physical problems. "They are convinced that they are women through some biological mistake. "And this is a disavowal of the responsibility of being a male.

"They believe that women are taken care of."

Brutal Fathers
Dr. Pauly said that the desire for conversion could be traced by analysis of many cases into childhood, rather than to adult experiences.

Coccinelle
Coccinelle enjoys love as much as any born female.

Of their desire for the surgery:
"We search for those and other hidden facts about the
Probably the most glamorous member of the "fourth sex," France's Coccinelle!

(Continued from Page 4)

The only consistency about the "fourth sex" shows up there in the early years.

IT IS IN THE FACT THAT MOST OF THESE MEN HAD ALCOHOLIC FATHERS WHO PUNISHED THEM BRUTALLY.

"It apparently gave them a reason to escape from responsibility of being a man," Dr. Pauly said.

"They were faced with the idea of having to take charge—and they couldn't face it."

Dr. Pauly and Dr. Harvey Benjamin, an eminent American physician who has dealt with and studied sexual problems for more than 40 years, both agreed that this did not mean the men became homosexuals.

They believe simply that they are women. As women, they hate the male organs attached to their bodies.

Self-Mutilation

And this leads frequently to tragedy.

MUCH OF THE SEX CHANGE SURGERY IS PERFORMED BECAUSE THE MEN HAVE MUTILATED THEMSELVES IN CRUDE ATTEMPTS AT SELF-CONVERSION.

The medical experts reported that it was one of the unfortunate results of the trap into which these men—called "transsexuals"—fall.

They do not want to be homosexuals, but find themselves responding as women.

They want to live as women, but find every state condemning them if they wear women's clothes and attempt to impersonate them.

Tampering

They cannot get medical help easily because, as Dr. Dewey pointed out in a report early this year, most physicians want to get rid of such patients as quickly as possible and condoning tampering "with our God-given bodies."

They cannot find mental peace because the specialists point out—there is no known psychiatric success with such a person, including one transsexual who underwent three years of analysis.

Christine Jorgensen

Dr. Pauly said that such deeply troubled individuals see a ray of hope in such cases as that of Christine Jorgensen.

There are now six such marriages under study in this country.

The transsexuals are happy and content in their new roles.

They seem to have ironed out most of the obvious marital problems that would arise with their husbands.

THE ONLY THING THEY CANNOT DO AS WOMEN IS HAVE CHILDREN.

For those who remain single, the specialists say life is much more emotionally stable.

Prostitutes

But there is the one great flaw: Many of the "new women" turn into harlots.

The doctors said that even though the individuals were convinced they were women, had taken the irrevocable surgical steps to make the change and now were free to be women, there was still some great basic need to prove it.

To whom?

Themselves—and the doctors said there was no greater proof for some than to share a few moments of sex with a man time after time, man after man.

"A good number of the ones who have made the change run into this and other difficulties," Dr. Pauly said.

"This is what we want to find out, but there isn't too much follow-up material available.

"The whole problem has not been examined as thoroughly as it might be."

Operation

"The reports that do follow-up on the lives of the individuals lead to a good deal of questions in my mind that the operation does really do any good."

But Dr. Benjamin, and a number of others, are convinced that it is a good operation—in fact, the only way out of misery, madness and mutilation—for many of the transsexuals.

Dr. Benjamin said that many rigid conditions would have to be fulfilled by the prospective man-woman.

They would include a sane, adult understanding of what was happening, an attempt to solve the problem in other ways, a family and social acceptance, and, finally, a conviction that this last great step was the only way.

Then he would recommend it and a surgeon could be found in the United States to perform the operation.

This is what it involves, as described by the doctors:

Penis Removed

The penis is removed. The testicles are castrated or raised into the body where they are out of sight, but still functioning for glandular purposes.

The skin of the scrotum is used to fashion a labia majora through plastic surgery.

A cavity at least 10 inches in depth is created to stimulate the womb.

Certain sensitive nerves of the male genitalia are grafted to the clitoris.

The result: a woman, member of the fourth sex.

The doctors said that if problems in sexual relations arose later, surgical adjustments could be made.

But there is no return and the new woman is in a world of her own, a world that few understand, many condemn as Godless—and many are seeking to enter at this moment.

Barbara Buick changed her sex and became a sexy bathing beauty.

I TAUGHT Z TAYLOR TO WEAR A BRA!

And I taught Mansfield how to be sexy and Monroe how to wiggle

By KIT RUSSELL
As Told to Jim Goltz

I taught Elizabeth Taylor how to wear a bra. (She didn’t wear one before I met her.)
I taught Jayne Mansfield how to be sexy.
I taught Marilyn Monroe how to walk so she wiggled.
I taught Pearl Bailey how to tell a naughty joke.
I taught Bette Davis to smoke a cigarette.
I taught Judy Garland how to sing and how to cry.

And I taught Mae West the facts of life.
I’ll let you in on a big secret. Every one of these “ladies” wears falsies!

JAYNE MANSFIELD ALONE WEARS EIGHT PAIRS OF “CHEATERS” TO MAKE HER BREASTS LOOK BIG.

Ho hum. It’s all in a day’s work. Because the “movie stars” I have just mentioned are not the real McCoy.

They are a group of highly talented MEN who make their living at Greenwood Village’s 82 Club as female impersonators.
They impersonate all of these famous stars.

Sexier Than Mansfield

And I am their director and coach. I teach these men how to be sexier than Lady Godiva, Eve and Mae Mansfield combined, for I stage, direct and produce the floor show at the 82 Club.

And take my word for it, most of these female impersonators are as beautiful and curvaceous as the famous movie goddesses and sexpots they imitate!
I have lived in the upside-down world of female impersonation for 18 years—first as an impersonator, and now as the Director-Producer of the 82 Club’s revue.
It’s a bizarre world. But it’s fun and exciting, too.
I’ve been in show business most of my life. Even as a child I prepared for a career as a dancer and actor. After my discharge from the Navy after World War II, I began working as a chorus boy in Broadway musicals.

Then the musical smash hit “Oklahoma” was produced and the careers of many dancers came to a dead end—mine included. I had been trained exclusively in tap dancing, then the type of dancing used in musical revues.

With “Oklahoma,” tap dancing was replaced by bal­let dancing.

I took to the open road and was dancing at a club in Cleveland when an enterprising agent dropped a bombshell of inspiration in my lap.

“I know, Kit,” he said. “Time is ripe for a good female impersonator.”

Sex Change Without Surgery

So I cashed in my war savings bonds and invested the money in a fancy new wardrobe of glittering gowns and the padding necessary to make me “broad where a broad should be broad.”

Then I bought three natural hair wigs and had an act written and staged for me.
I also took lessons—six months of them—training my baritone voice to sound like a dainty female’s.
All the money and effort was worth it. My act was launched and, within a short time, I was signed on at New York’s famous 181 Club, then the most famous “drag” (female impersonation) club in the country.

PLAYED GIRLS ON TV

And I was given star billing! Something I’d never had as a male!

On my opening night there was a panel of television casting directors in the audience. After the performance, one stopped backstage and told me, “You might be good on TV.”

“What?” I scoffed. “A female impersonator on television?”
I shouldn’t have scoffed. He was right.

The next six years of my life were spent before the TV cameras, doing major roles in three highly-rated network TV series!
I was the first female impersonator to appear on TV. And, to my knowledge, the only one to work regularly in a weekly series.
