Dear Alice Purnell.

It is a long time since I have send You a few words. But here I am. I must say "Thank You" for the bulletin and I send You here 2 of our papers and do hope You can use them, at the same time I send You an invitation to our 10 years birtdayparty, which we shall hold in Sweden the 10-11-12 September this year. At this time I know we will be about 70 persons to this party. We shall have some doctors and psychiatrists as guests saturday evening, where we shall celebrate the day.

I do hope You are all right and that Your Society are in progress, we here in Norway, Sweden, Finland and Denmark can say, that new members are coming, slowly but they come. It is still the same thing, that many people thinks that we are homosexual persons, when we crossdres and at last they have made a film in Sweden, by a proff. director. This film should have told the world outside us a little about us, but You know, that to day, You can not make a film without pornography and so it is with this film too. We saw a little bit in the TV last week and one of our members rang mee afterwords and said, "Oh dear, all what we have bild up in ten years, then can break down in two minuts and so it is. Well, there is only one way to see at that thing and it is to fight more and send new and more information out.

I will close now and send You and all the sisters in England the best greetings from us here in Scandinavien.

Yours

Evy Jorgensen
